

Log In – Registration

Before you can start to use MortgageBrain Anywhere, you first need to register your system.

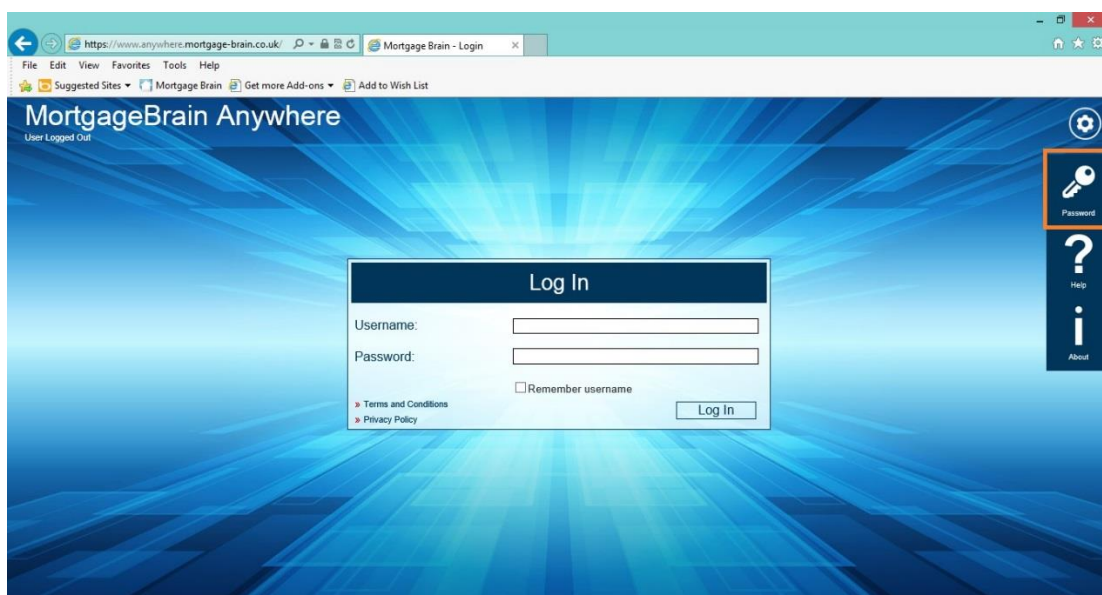

Log In – Username and Password

To enable access to MortgageBrain Anywhere, you first need to enter your Username (email address) and Password, which you would have chosen during the registration process. Enter the details in the box you see below and click or tap Log In.

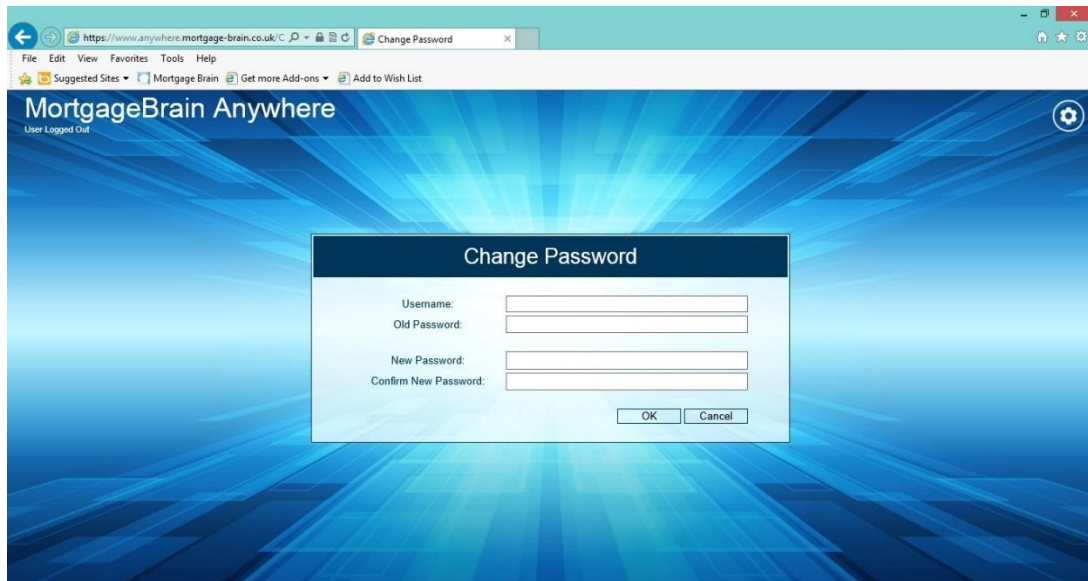

Change Password

If you wish to change your password, click on the Settings icon, highlighted below, on the top right hand corner of the screen and choose the option Password.

You will be prompted to enter your user name and your old password. You can then enter your new password and apply the changes.

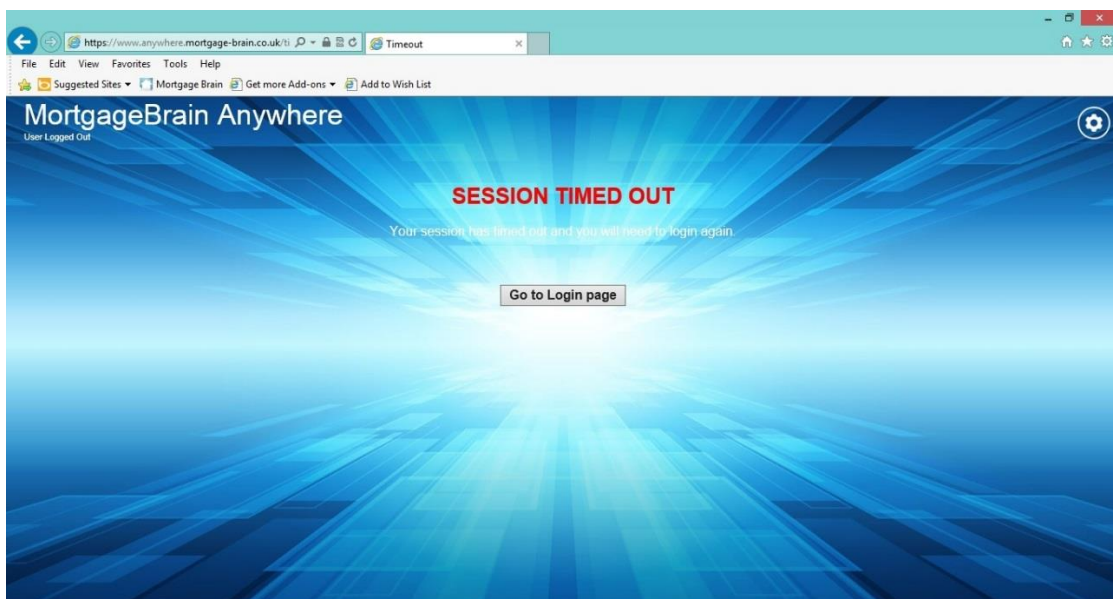

Forgotten Password

If you have forgotten your password, you will need to contact Customer Services on 0208 665 3200 for assistance or email them customer.services@mortgage-brain.co.uk.

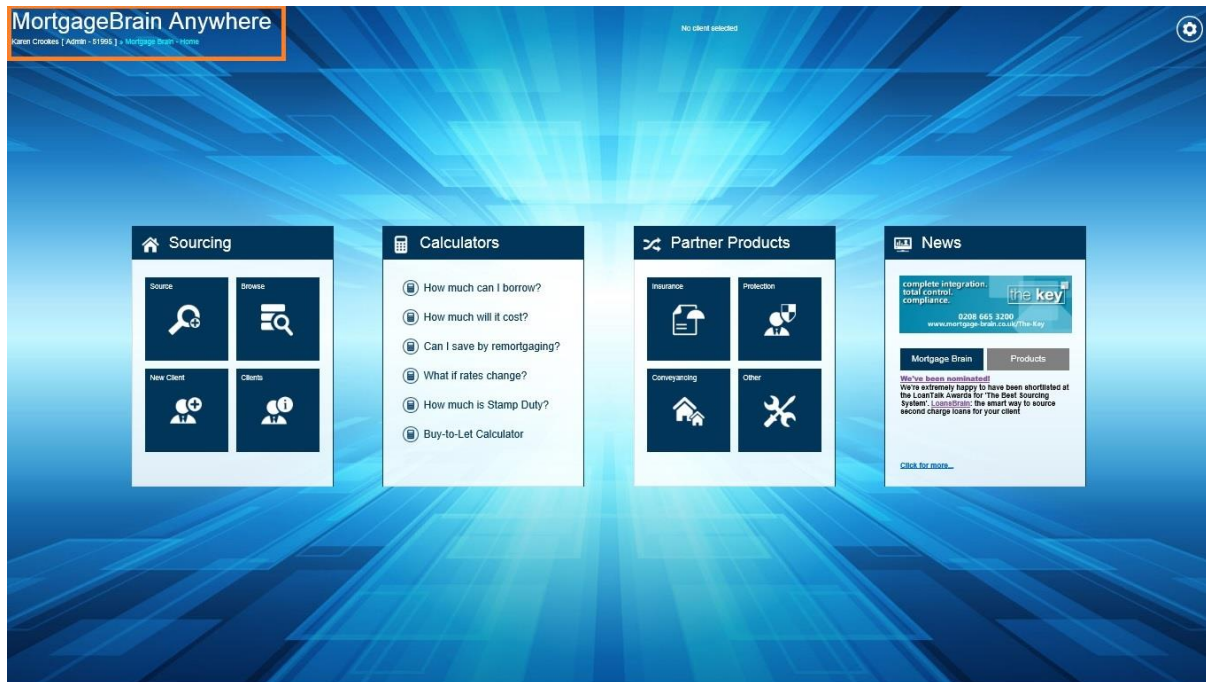

Session Time Out

If you have logged into MortgageBrain Anywhere and leave it open without using it, the software will time out after 60 minutes.

You will then be required to log back in to use it and any client data which has not previously been saved will be lost. There is a warning message that appears just before the software logs you out.

Once you have logged in, your name will be displayed in the top left hand corner under the MortgageBrain Anywhere logo, together with your unique Site Reference. This means that any documentation printed from MortgageBrain Anywhere, such as a KFI or ESIS will now display your name.

Note that at this stage, no client has been selected and therefore the wording in the middle of the screen at the top of the page will clearly state that 'No client selected'. How to source with or without a client is described in the other user guides.
