

## Mortgage Brain enhances training support with new webinars

**UK, May 28, 2015):** Mortgage Brain, the multi-award winning mortgage technology solutions provider, has enhanced its training and support services with a range of new product demonstration webinars.

Designed to ensure brokers are fully up to speed and are maximising the full potential offered by Mortgage Brain's suite of mortgage technology solutions, the free webinars are proving extremely popular with record numbers of brokers registering to attend over the past few weeks.

Led by Mortgage Brain's experienced product specialists, the new training and support programme includes weekly mortgage sourcing webinars for MortgageBrain Anywhere and MortgageBrain Classic, a twice weekly training session for the MTE - Mortgage Brain's electronic trading platform, and daily module based webinars for its CRM and point-of-sale system, the Key.

Mark Lofthouse, CEO of Mortgage Brain, comments, "We are committed to making certain that all our users have the opportunity to find out more about their Mortgage Brain system to ensure they get the most value out of it.

"We're delighted with the success of the new webinars. They are all proving very successful with brokers benefiting from 'live' walkthroughs of our new sourcing system, discovering new features and shortcuts for our point-of-sale system, and being shown how they can submit application forms to up to 13 major UK lenders from one place using the MTE."
