

Mortgage Brain launches revolutionary online sourcing system

UK, October 21, 2014: Mortgage Brain, the multi award-winning mortgage technology solutions provider, has today announced the launch of MortgageBrain Anywhere, its revolutionary online mortgage sourcing system.

The brand new online sourcing system is fast, accurate, covers the whole-of-market, and has been designed to be device independent. Hundreds of brokers have been using the new system through their participation in the early adopter program and MortgageBrain Anywhere is now on general release.

Set to transform mortgage sourcing, MortgageBrain Anywhere uses the latest technology to enable mortgage sourcing to be accessed and conducted through a web browser on any device.

Optimised for PCs, Macs, the iPad and Android tablets, MortgageBrain Anywhere can be 'driven' by touch or mouse and is fast, intuitive and incredibly easy to use and will enable brokers to work quickly and efficiently to source and select the best products for their clients.

Brokers can start a case on a laptop at home, for example, and continue on another PC at the office and pick it up again on an iPad at a later date.

Mark Lofthouse, CEO of Mortgage Brain, comments, "MortgageBrain Anywhere is another huge stride forward for the UK mortgage market and we're incredibly excited to be making it available to all with a full, industry-wide roll-out.

More/...

"The feedback we've received since the first announcements, at demonstrations, and throughout the pilot has been absolutely amazing. With MortgageBrain Anywhere brokers have the freedom and a new level of flexibility to source mortgages on any device or platform that is convenient.

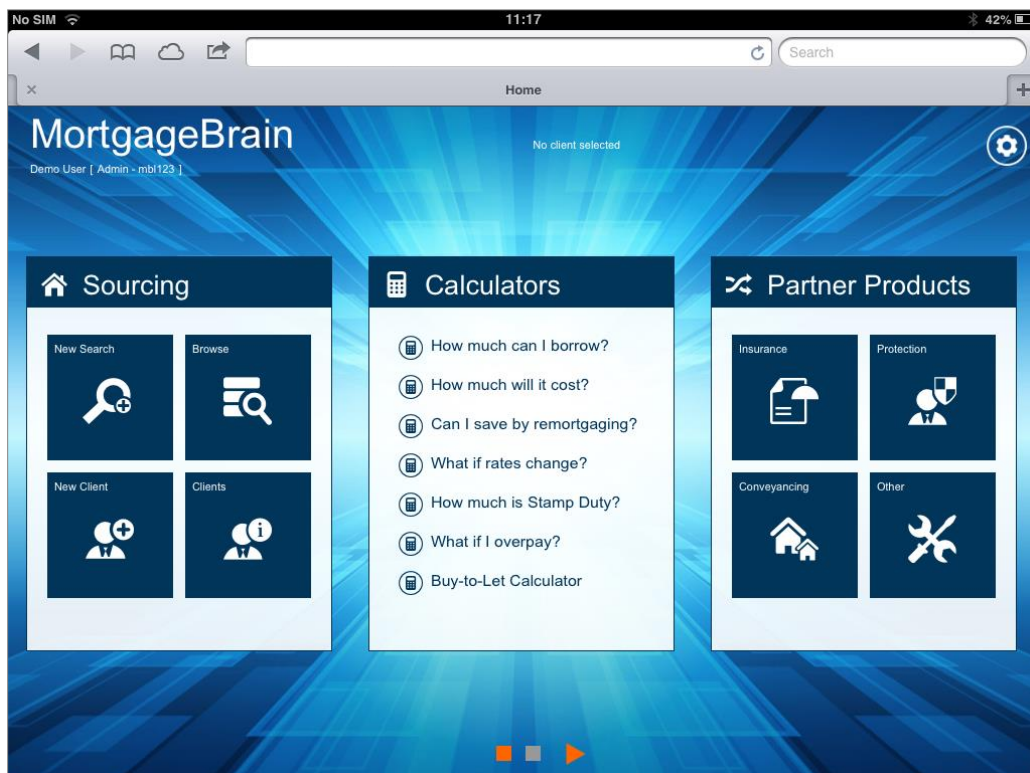

"This means brokers can now provide new levels of service and interaction with their clients by conducting quick, yet thorough, whole-of-market mortgage searches and KFI production on any device or platform, and in any location."

MortgageBrain Anywhere is a result of Mortgage Brain's continuous investment program and further demonstrates its commitment to delivering the best technology for brokers.

MortgageBrain Anywhere is a new addition to Mortgage Brain's suite of award-winning mortgage technology solutions and is an online alternative to MortgageBrain Classic, its market-leading desktop sourcing system.
