

The Right Mortgage and Protection Network adopts Mortgage Brain's technology solutions

UK, February 9, 2015: The new and innovative mortgage and protection network, The Right Mortgage and Protection Network, has selected Mortgage Brain's suite of mortgage technology solutions to meet the needs of its mortgage advisers.

As part of the agreement The Right Mortgage and Protection Network will now be using the Key; Mortgage Brain's market-leading point-of-sale, compliance and CRM system, as its complete business management solution.

The Key, the industry's fastest growing and most preferred mortgage CRM system, will be the tool of choice for Right Mortgage and Protection Network's advisers, enabling them to control and manage the entire mortgage process from initial contact and fact find through to product sourcing, client management and compliance reporting.

The Network will also be offering its mortgage advisers access to the MortgageBrain Classic sourcing system – and shortly Mortgage Brain's device independent, MortgageBrain Anywhere system – which will be used to conduct quick, yet comprehensive, whole-of-market mortgage search and selection processes for their clients.

Adam Stretton, joint MD at The Right Mortgage and Protection Network comments, "Our team of highly trained mortgage specialists have developed a reputation for delivering a first class service to their clients and it's imperative that we support them with the very best technology solutions available.

"We conducted a thorough review of the market and were hugely impressed with Mortgage Brain's systems and its support service.
